Limitations (Maximum Size)

Fabric	Max. Width	V84												R26, SGR, Son30			
		Chain						\$50 Neo						R26, SGR, Son30			
Apex Opaque	94	91"x110"						95"x84"						87"x144"			
Basket Opaque	116	87"x110"						91"x84"						83"x138"			
Bubble	98	93"x110"						97"x84"						89"x144"			

A minimum depth of 1" (2.5cm) is necessary for installation.
 1) Measure width (A)
 2) Measure height (B)
 3) In both cases deduct 0.25"
 (0.6cm) for clearance and give finish measurements.

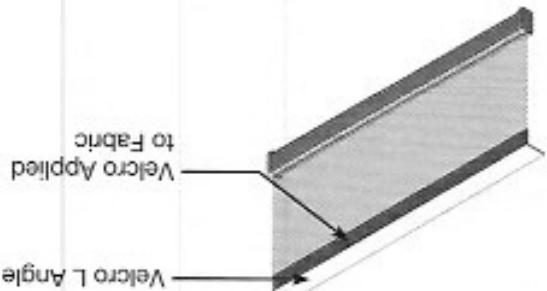

How to measure

Give all measurements (without deductions) and a template of actual window dimensions.
 How to measure
 These panels are made for special window shapes. Velcro with adhesive backing will be supplied

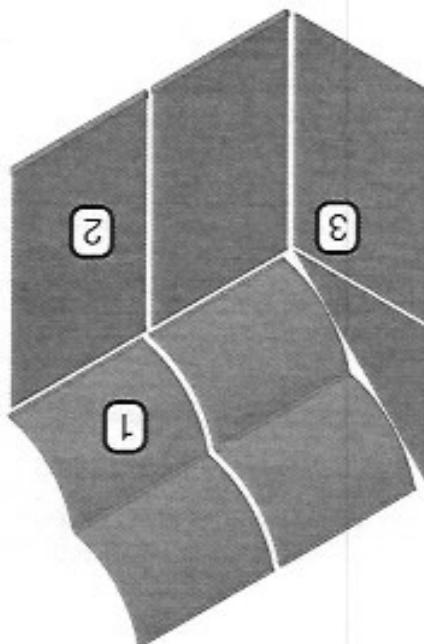

Option 3:

This application is for ceiling mount only. It includes velcro angle at the top, sewn velcro at the top of the fabric, and a bottom bar to keep the fabric taut.

Option 2:

Velcro Angle Ceiling Mount with Bottom Bar (order code: FX-VB)

Option 1:

The Tension Rod System consists of white aluminum pressure rods inserted into pockets made in fabric. This blind does not operate. It remains in a fixed position but is very easy to remove for maintenance.

Tension Rod System (order code: FX-TR)

FIXED SHADE OPTIONS

FIXED SHADE PRICE GROUPS

SUN GLOW

Note:

- Some limitations may apply. Please contact your customer care representative.
- Some fabrics cannot accommodate all grid sizes due to roll width. Check limitations on pages 4 to 7.
- If tension rods are selected add \$20 per tension rod.

PANEL TRACK

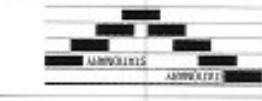

Order Code:

Stationary Panel at Front: SF
Stationary Panel at Rear: SR

FEATURES AND BENEFITS

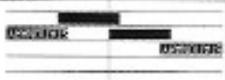

- Contemporary design.
- Can be ceiling mounted.
- Available in center split and one way opening - with left or right stacking.
- For certain fabrics, graphic printing can be added.
- High quality aluminum track system.
- Cord, wand, or automated by adding an additional Glydea track (see page 99).
- Roman shade look available with no sew bars.
- Ideal for patio doors, large windows, and room dividers.
- Available in 3, 4, or 5 channel track.
- Fabric valances optional.
- Stationary panels are at the back for center split configurations. For one way openings, location of the stationary panel must be specified front or back.

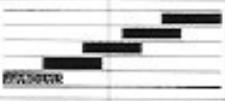

8 Panels - Center Split
using 5 channel track

6 Panels - Center Split
using 5 channel track

4 Panels - Center Split
using 5 channel track

5 Panels - One Way
(Open Right Show)

3 Channel Track

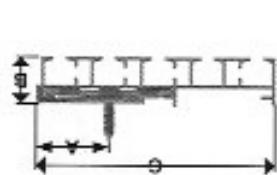

4 Channel Track

PANEL TRACK Specifications

8 Panels - Center Split
using 6 channel track

9 Panels - Center Split
using 7 channel track

Side View - Ceiling Mount

Ceiling	A	B	C
Minimum Installation Surface Depth	1 7/8"	15/16"	2 3/8"
Installed Track Height	47mm	24mm	60mm
Installed Track Depth	3 1/2"	15/16"	3 1/4"

Note: Please contact our technical department for areas requiring more than 6 panels, or other special configurations not shown here.

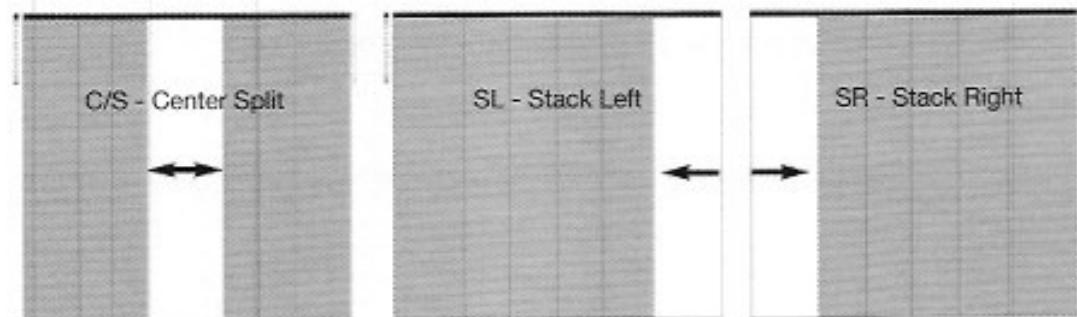

PANEL TRACK Specifications

- The minimum panel width is 16" and the maximum panel width is 48".
- 5 Channel Track is required for all centre split applications.

Control Position and Opening

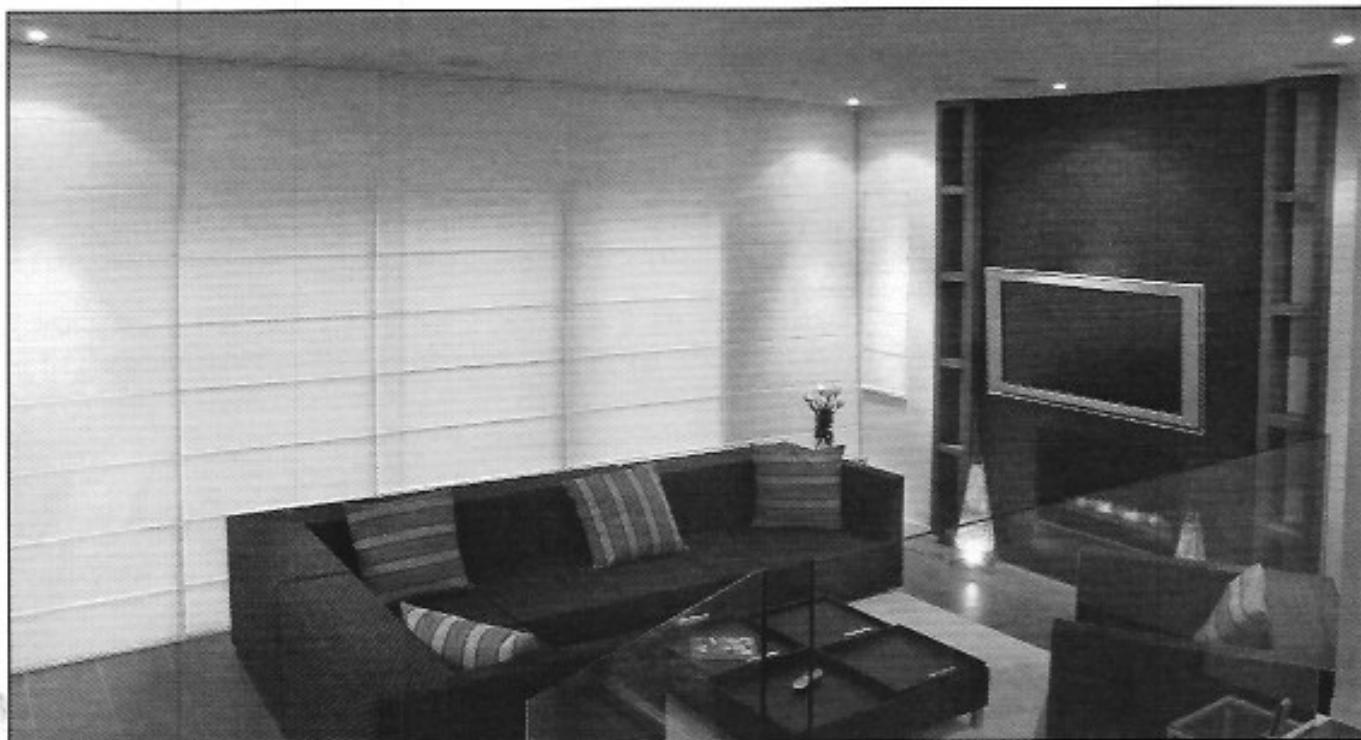

Panel Width Calculation

Panels overlap by approximately 2". To determine the approximate width of each panel, divide the total width of the panel track system by the number of panels and add the following:

1"	for 3 panels	1 3/8"	for 5 panels
1 1/4"	for 4 panels	1 1/2"	for 6 panels
1 1/4"	for 4 panels	1 5/8"	for 8 panels

Panel Height Calculation

Sun Glow will deduct 1/2" from the height of the panel track when "tight" measurement is specified on the order form. No deductions are taken on "finished" measurements. When using "finished" measurements, Sun Glow recommends a height deduction of a minimum of 1/2" in order to accommodate uneven floors and ceilings.

No Sew Bar \$5/ft. (no minimum order quantity). Order Code: RM
Pricing: \$5/ft. (rounded up to closest foot) x # of panels x # of rows of No Sew Bar.

PANEL TRACK PRICE GROUPS

- All Panel Tracks include track, fabric panels, side or centre split, manual control (cord with cord weight or wand), mounting brackets, and choice of bottom bar.
- Please refer to the formula on page 65 to determine the approximate width of the panels.
- Sun Glow does not recommend returns for fabric valances. Choosing this option is at your own risk. For fabric valance with return pricing, add 10% to the fabric valance price.
- Prices are for shade only. Applicable motor options and controls must be added to these prices (see pages 86 to 100).

Valance Options (Add Price to above grid)

Fabric Valance	103	111	119	127	135	143	151	167	183	199	214	230	246	262	278

- Classic elegance combined with modern function.
- 1.5" VersaRail provides a finished look to the exterior.
- No sew bars are applied in intervals of 8" to 10".
- Cord is at side edge of the headrail. Fabric could be extended to cover cord if preferred.
- In order to maintain a clean look, no valance options are recommended.
- Universal bracket provides easy installation for both ceiling and wall mount applications.
- Minimum width for manual Roman Shades is 18".
- If valance is attached leave 3" of clearance between the valance and headrail to accommodate the folds of fabric in open position.
- Minimum width for automated Roman Shade is 24".

The shaded sections of the charts below indicate the maximum possible dimensions when using the fabrics associated with each chart, for both manual and motorized options; However, it does not mean they can reach the maximum size shown.

FLAT ROMAN LIMITATION CHARTS

FLAT ROMAN PRICE GROUPS

SUN GLOW

Fabrics not shown may not be suitable for Roman Shade applications. If selected, you acknowledge that you have been informed of the limitations and accept responsibility.

Suggested retail price for manual shades. Automation is available at an added cost (see pages 86 to 100). Flat Roman includes fabric, Versarail headrail, bottom bar, mounting brackets, cord with cord weight, and choice of hem. Fabrics marked with an asterisk(*) are subject to size limitations either because they are unsuitable for railroading or seaming. See table on pages 4 to 7.

- LIGHT GAP MAY INCREASE WHEN:**
1. USING FABRICS WHICH TEND TO TELESCOPE.
 2. THE WIDTH TO HEIGHT RATIO IS 1:2.5 OR GREATER.

- Bottom bar does not allow light penetration and features a levelling weight system.
- Cord loop is standard. If stoppers are required, specify chain.
- Minimum width for automated illusions is 16".
- The opaque or translucent vanes measure 3" in depth/height.
- Bottom bracket provides easy installation for both ceiling and wall mount applications.
- Universal bracket offers easy installation for both ceiling and wall mount applications.
- D12 and D16 cassettes allow for the option of adding a fabric insert for complete coordination. Fabric insert is compressed of the opaque or translucent vanes of the fabric.
- D12 and D16 cassettes available in grey, brown, linen, and white.
- D12 and D16 bottom bars available in bronze, black, dark bronze, linen, and white.
- The illusions system combines transparent fabric with opaque or translucent vanes for total control over privacy and light filtering.

Features and Benefits

- The Interlude system combines transparent, translucent or opaque vanes for control over privacy and light filtering.
- System is enclosed in either a Decora 8 (D8), Decora 12 (D12) or Decora 16 (D16) Cassette.
- Decora Cassettes are available in white, linen, anodized, dark bronze and black with matching end caps.
- Decora Cassettes come standard with a fabric vane insert matching the shade material for complete coordination.
- Unique bottom bar features a fully enclosed roller mechanism.
- Bottom bar available in white, linen and silver, dark brown and black.
- White or linen coloured cord loop is provided in standard lengths of 2', 3', 4', 5', 6' and 7'. Other colours available on request.
- Plastic bead loop chain available in white, linen, grey, dark brown, and black.
- Stainless steel loop chain is optional and comes in standard lengths of 45", 50", 55", 60", 65", 70", 75", 80" and 85".
- Universal bracket provides easy installation for both ceiling and wall mount applications.
- Optional Bracket available for Lateral Mount applications.
- Minimum width varies based on motor choice. Refer to automation section (pages 86 to 100).

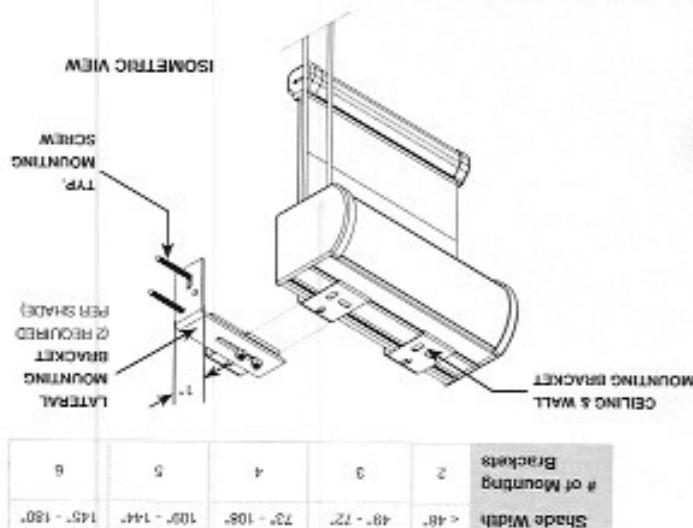

IF THE SHADES ARE TO BE INSTALLED SIDE-BY-SIDE, PLEASE INDICATE ON THE ORDER FORM IN THE SPECIAL INSTRUCTIONS SO THAT THE VANES MAY BE ALIGNED DURING MANUFACTURING.

- Built-in rechargeable battery.
- Low power consumption for decreased energy costs and sustainability.
- Motors and accessories are value priced.
- One full charge enables up to 300 up/down cycles.
- Can retrofit your existing open roll shades.
- Option solar panel is available for effortless recharging.
- 1 and 15 channel remote option.
- Ideal for roller shades, interior and exterior illusions.
- Motors are easily rechargeable with a plugin DC charger.
- Optional solar panel is available for effortless recharging.
- 1 and 15 channel remote option.
- Ideal for roller shades, interior and exterior illusions.
- One full charge enables up to 300 up/down cycles.
- Can retrofit your existing open roll shades.

AC (line-voltage)	DC (low-voltage)	AC (line-voltage)	DC (low-voltage)	AC (line-voltage)	DC (low-voltage)	AC (line-voltage)	DC (low-voltage)

Products Supported:

- When window coverings are close to an existing electrical outlet there is no need for an electrician.
- Applications that can accommodate headboxes larger than 3" x 3".
- Accommodates most window covering sizes and heavier fabrics.
- Residential or commercial applications.
- When window coverings are close to an existing electrical outlet there is no need for an electrician.
- Applications that require smaller headboxes or valances under 3" x 3".
- Smaller size window coverings and lighter fabrics.
- Mainly residential and some commercial projects where the power is not accessible by the general public.

Recommended Uses:

- Cables are visible.
- RTS (radio frequency control) compatible - See control options (page 90).
- An electrician may be required depending on the location of the electrical outlet. 3' to 24', cables are optional.
- AC option comes with a 3 prong plug.
- DC option comes with a 2 prong plug without an electrician.
- The window covering can be serviced without an electrician.
- The motor plugs directly into a standard electrical outlet.

Features & Benefits:

Power Option #2 - Plug-in Motors

Products Supported:

- Smaller size window coverings and lighter fabrics.
- Areas where access to electrical wiring is not possible.
- Residential projects requiring a small number of window coverings.
- Requires 8 AA Lithium Batteries (comes loaded by Sun Glow)
- 12V Rechargeable Battery Tube

Recommended Uses:

- Easy to install.
- RTS (radio frequency control) compatible - See control options (page 90). Plug-in transformer optional.
- No electrician required.
- No wires to conceal.
- Battery operated (8AA lithium batteries can be purchased anywhere).

Features & Benefits:

Power Option #1 - Wirefree 12V Motors

The following three options are the most common choices to power motorized window coverings. For more sophisticated automation and integration options please call our technical department.

Guidelines

SOMFY AUTOMATION

SOMFY AUTOMATION

Guidelines

Power Option #3 - Hardwired Power Motors (with bare wire)

Features & Benefits:

- The motor is wired into the home/building's electrical system.
- Both RTS (radio frequency control) and non-RTS compatible.
- Wires are concealed behind the walls.
- DC option is wired into a power supply/transformer.
- AC option is wired into a junction box by an electrician.

Recommended Uses

DC (low voltage)

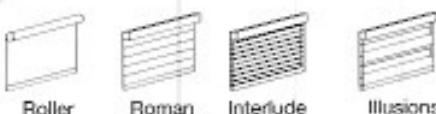

- Mainly residential and some commercial applications.
- Smaller size window coverings and lighter fabrics.
- Applications that require smaller headboxes or valances under 3" x 3".
- When integrating into a home/building automation system.

AC (line voltage)

- Residential or commercial applications.
- Accommodates most window covering sizes and heavier fabrics.
- Applications that can accommodate headboxes larger than 3" x 3".
- Applications requiring RTS (radio frequency control) and non-RTS controls.
- When integrating into a home/building automation system.

Products Supported:

DC (low-voltage)

Roller

Roman

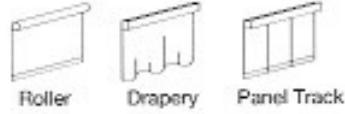

Interlude

Illusions

AC (line-voltage)

Roller

Drapery

Panel Track

Control Option #1: RTS (radio frequency control) Wireless Controls

- Operates on radio frequency so there's no need to aim the control.
- No control wires required.
- Radio signal travels through walls up to 65' in all directions.
- Available in hand held remotes and wall switches.
- Optional wall switch timers and sun sensors.
- Available in single and multi-channel versions.
- Offers flexibility in individual and group control.
- Motor limits and settings are easily programmed with the remote or wall switch.
- Multiple motors can be programmed to a single channel.
- Up to 12 remotes can be programmed to the same motor.
- Can be used as a stand alone system or integrated with home/building automation systems.
- myLink can be used to operate shades with mobile app.

Control Option #2: Standard Wired Switch

- Ideal for applications where radio communication is not feasible.
- Can be controlled individually or in a group.
- Controlled with line voltage paddle switch. Dry contact control optional.
- **NOTE:** For more information, please contact our technical department.

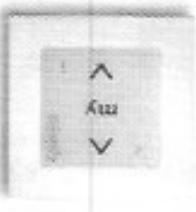

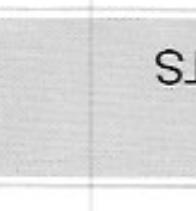

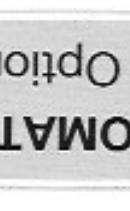

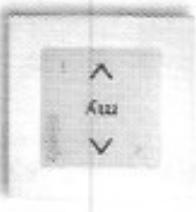

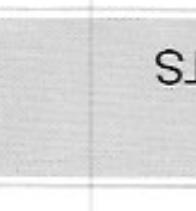

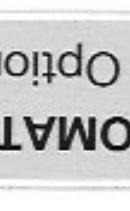

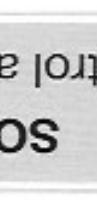

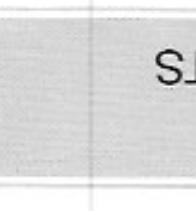

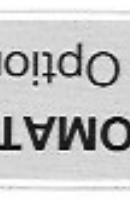

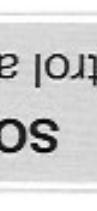

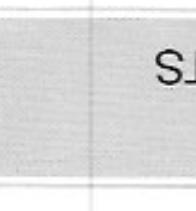

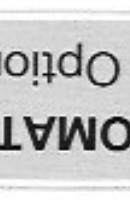

Control Option #3: Somfy Digital Network (SDN 2.0)

- Operates on RS-485 communication protocol.
- Can be used as a stand alone system or integrated with home/building automation systems.
- Two-way communication provides shade position feedback to control interface.
- Available in both wired and wireless configurations.
- **NOTE:** For more information, please contact our technical department.

Note: Use the Special Instructions Section of the order form to specify the desired order codes.

Guidelines

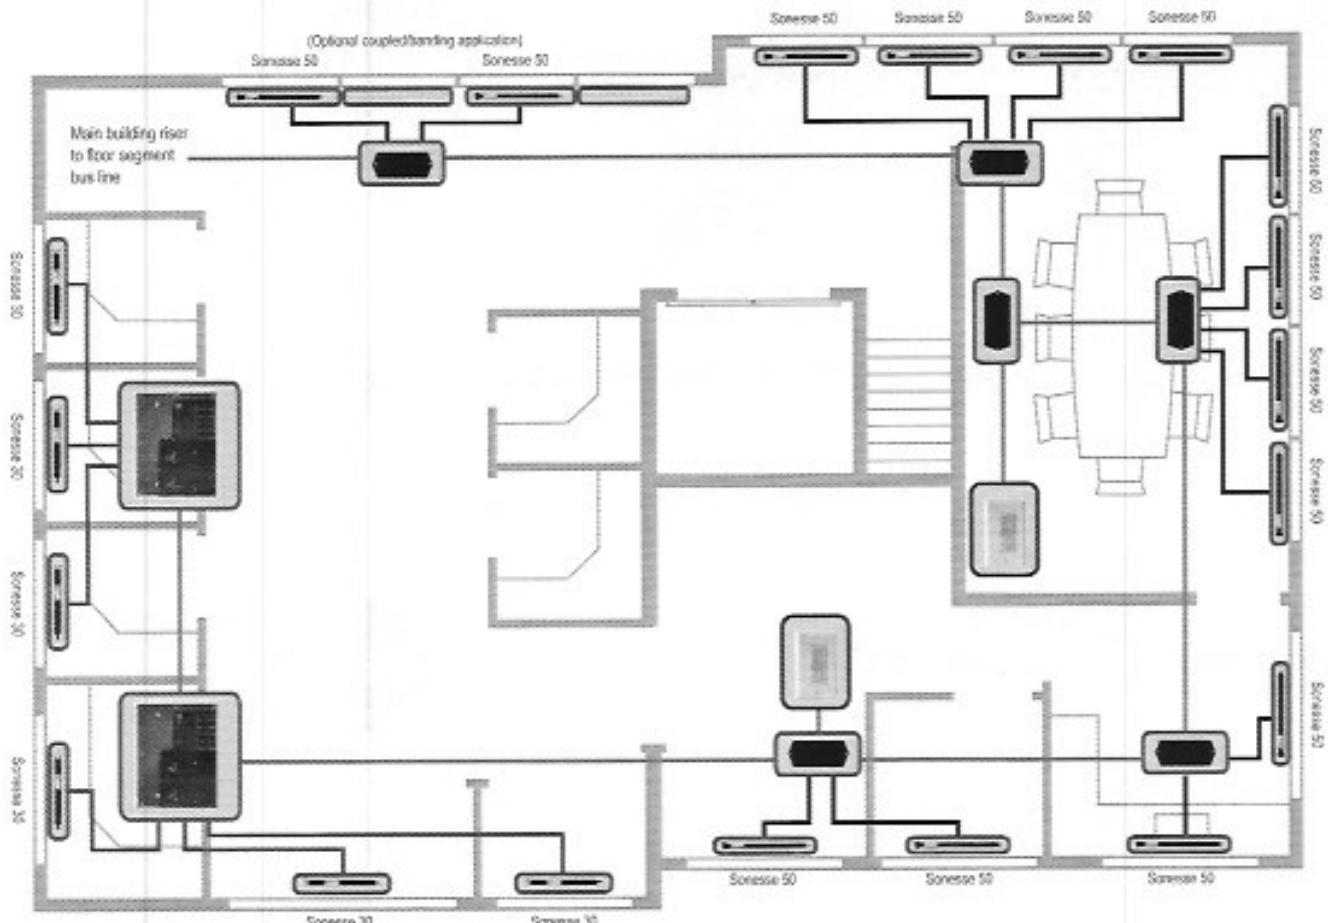

NEW

Intelligent Automation

The following section provides a basic overview of Sun Glow's new intelligent automated shading systems. Selecting, configuring, and applying these systems requires knowledge that is above and beyond the skills required for implementing RTS and dry contact controlled systems.

The Somfy Digital Network (SDN 2.0) is the latest generation of bus-line enabled Intelligent Tubular Motors and Smart Switch Controls. The SDN components are integrated into a cost effective system designed to operate a wide range of end products over a standard RS-485 network compatible with the latest home automation systems.

Please contact the Sun Glow technical department for assistance when utilizing the following systems.

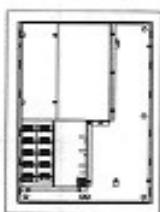

Contact Us

To ensure better service, Sun Glow has implemented the following centralized e-mail address that is monitored regularly by the Sun Glow team.

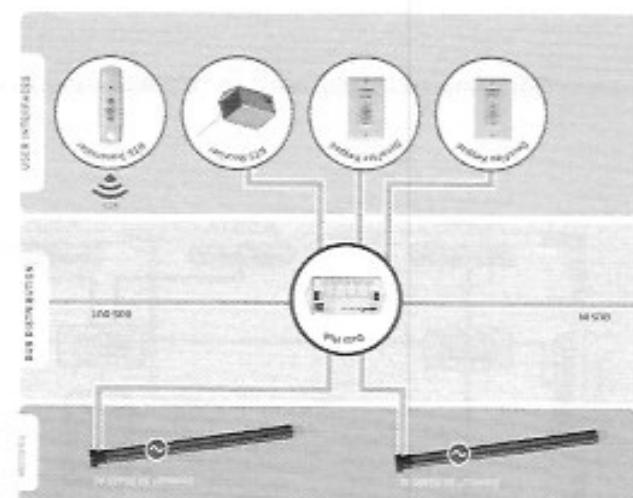

Technical inquiries: support@mysunglow.com

For custom data connection and bus line configurations, please contact the Sun Glow technical support staff.

The pricing shown above includes track made to your measurements (Order code: GTR35):

- Includes pinch pleated track (Order code: PPT) or made to motorized panel tracks (Order code: MPT) in split or side draw.
- Includes 110v RTS Glydea 35 motor with a 10ft AC cable – 35kg capacity. (Order Code GTR35)

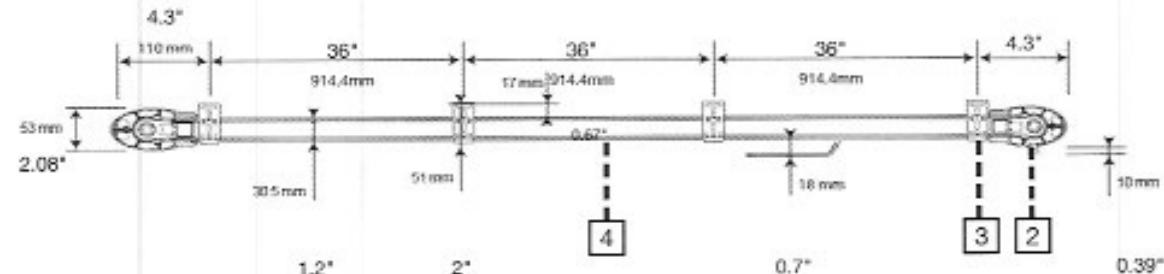

Additional Options:

- Upgrade motor to 110v RTS Glydea 60 motor w/10ft AC cable
- 60kg capacity & torque sensitive motion. (Order code: GTR60) - Add \$338 extra.
- 3 pinch pleated carriers provided per ft. For extra carriers (Order code: EX# - where # is the quantity of extra carriers you require) - Add \$4.00 per carrier.
- Ripple fold carriers are available in split or side draw.
 - Fullness 80% - 2 3/8" - 5 carriers per ft. (Order code: RF8) Add \$15 extra per FT
 - Fullness 100% - 2 1/8" - 6 carriers per ft. (Order code: RF10) Add \$20 extra per FT
 - Fullness 120% - 1 7/8" - 7 carriers per ft. (Order code: RF12) Add \$25 extra per FT
- Bent tracks add \$450 per bend - Tracks will be split.
 - 45 degree bend (Order code: BT45)
 - 90 degree bend (Order code: BT90)
- Z-Wave and ZigBee control options available (please call for pricing and information).

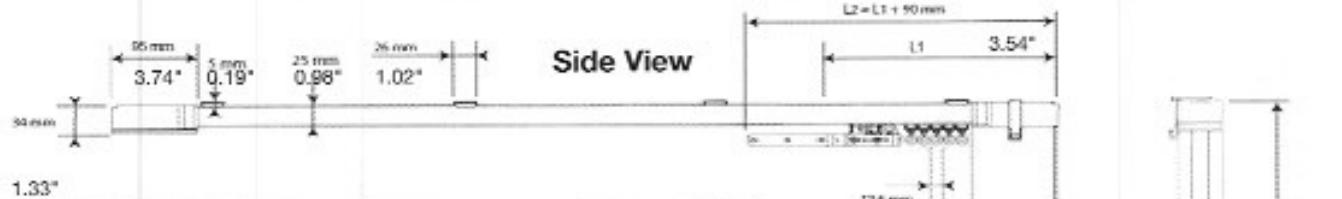

Notes:

- Track and motor available in white finish only.
- Tracks over 96" wide will incur additional freight.
- For bent tracks, a template or diagram must be sent along with the order form for clarification.
